The three M: Maths, Materials and Mathematicians

20-24 February 2022 The sixth international meeting took place at Gargždai Minijos Progymnasium, with the physical participation of students and teachers from Croatia, Poland and Romania. Teams from Italy and Turkey participated remotely. The meeting discussed PISA test results between the partner countries and compared mathematics teaching performance and curricula in partner countries. During this meeting, the mathematics activities focused on the activity entitled "The three M: Maths, Materials and Mathematicians".

Mathematics with games and fun in all Europe
