LET THE MUSIC SPEAK - eTwinning Project -

Teacher: Delighiosu Laura Cristina, National College 'Ana Aslan', Brăila

Students: 7B

Project implementation period: September 2024- June 2025

Members: Spain, France, Italy, Turkey, Greece, Ukraine, Romania, Poland, Germany

Participants: 9 countries and 149 students

Age range: 12-14

Subjects of teaching: Art, Cross Curricular, Informatics / ICT, Music, Vocational subjects of teaching, Art

Key competences: Citizenship, Cultural awareness and expression

Aims
The objectives are linguistic and cultural. Pupils cooperated and communicated with other European students in English, thus developing their language skills (oral and written). Works on the theme of music were exchanged and interactive activities took place between our pupils. This project aimed to unite pupils from different countries around this topic. They got to know their young European friends better through music.

Expected Results
Students carried out various works, including videos, logos, slideshows, cards and questionnaires. Interaction between all the participating pupils was encouraged through collaborative activities, especially through the creation of a song. Oral and written language skills were developed, as well as the ability to work in a group and take the initiative. This project also aimed at improving students' intercultural skills: they were able to get to know their young European neighbours better through music. The works were published on the Twinspace and shared on the websites and social networks of the participating schools, as well as during events such as school open days.
